

src/Common/parallel
_for.hpp

```
graph TD; A[src/Common/parallel_for.hpp] --> B[thread]; A --> C[Eigen/Sparse];
```

The diagram illustrates the dependencies of the file `src/Common/parallel_for.hpp`. It is represented by a gray rectangular box at the top. Two blue arrows originate from the bottom of this box and point downwards to two separate white rectangular boxes. The left box is labeled `thread` and the right box is labeled `Eigen/Sparse`. This indicates that the `parallel_for.hpp` file depends on both the `thread` library and the `Eigen/Sparse` module.
